SELECTED ANALYTICS & TECHNICAL PROJECTS

Optimizing Love's Customer Campaigns & Segmentation Analytics - Love's Case Competition | Python, pandas, Power BI
- Integrated five datasets spanning 20,000 drivers, 409K campaign records, 2.45M monthly product-sales records, and 700 stores; engineered customer and campaign KPIs and visualized segment performance in Power BI.
- Identified MediumDiscount as the strongest engagement segment (20.95% join rate; 29.99% achieve rate) and found age weakly related to gallons per visit (Pearson r = -0.05), supporting behavior-based targeting, A/B testing, and predictive segmentation.

Amazon Review Analytics & NLP Sentiment Analysis | Python, pandas, NLTK VADER
- Built a class-balanced sample of 300 reviews across 10 products from the 568,454-review Amazon Fine Food Reviews dataset; cleaned ratings/text and mapped star labels to positive, neutral, and negative classes.
- Applied VADER sentiment scoring and classification, evaluated disagreements and failure cases, and produced reusable CSV outputs plus product-level sentiment insights in a documented GitHub workflow.

Open-Meteo Weather API Application | C#, REST API, JSON
- Built a C# console application using HttpClient and async/await to call the Open-Meteo REST API, deserialize JSON into custom objects, and retrieve and transform weather data.

The Lies of Aggregate Indicators - Quantitative Modeling Research Paper | GeoGebra, Regression, Model Fitting, Excel
- Authored a 16-page quantitative IA modeling U.S. household income distributions (1967, 1990, 2019) with polynomial/exponential and piecewise functions; evaluated fit through residual analysis, R-squared interpretation, and chi-squared testing to examine limitations of aggregate economic indicators.

EXPERIENCE

Graduate Teaching Assistant | Michael F. Price College of Business, University of Oklahoma Fall 2026 - Present
- Support three sections of MIS 3013 Intro to Programming (C# OOP) through grading, code review, debugging, acceptance-test/rubric evaluation, office hours, and student feedback.
- Explain programming concepts and application logic, troubleshoot student code, and assist faculty with course materials and technical assessment.
- Additionally grade coursework for Data Management for BI using faculty-provided rubrics and assignment criteria, and periodically assist MIS 2113 students with introductory SQL querying and ERD design.

Student Assistant | Office of Student Conduct, University of Oklahoma | Norman, OK Fall 2023 - Spring 2026
- Managed case records in Maxient, verifying that required receipts and supporting documentation were accurately uploaded and maintained for compliance and potential audits.

Global Operations Intern | Youth Opportunities (YO) | Dhaka, Bangladesh Fall 2019
- Selected as the youngest-ever intern at this Forbes 30-Under-30 recognized organization; assessed applications, interviewed candidates, and supported recruitment of ~30 Global Ambassadors across six continents using Google Workspace, MS Office, and SEO tools.

LEADERSHIP

Boarder Representative | Student Representative Council, Waterford Kamhlaba UWC Fall 2020 - Summer 2021
- Elected to represent multinational boarding students from 80+ countries; worked with the Dean of Residences on student-facing residential policies during COVID-19-related challenges.
